

Transmission Stringing Travelers & Accessories

Series 6100 Convertible Bundle Travelers

	<p>The Lindsey Convertible Series 61 00" Slimline" Bundle Travelers provide a cost effective tool for stringing two or three-bundle transmission lines. These versatile and unique travelers are ideal for use where minimum weight and cost are prime factors, and they may be easily converted into a single Series 6200 or 6201 Traveler. They provide the user with the option of stringing single, two-bundle or three-bundle at a minimum cost. The Series 6100 Travelers allow for the addition of traveler grounds, uplift rollers, header bars for single point suspension, captive y-clevis eyes and traveler stands.</p>
<p>Material used in the construction of the frames and sheaves is lightweight, high strength, heat treated aluminum alloy. All ferrous parts are treated for corrosion protection. The sheaves are equipped with precision ground, deep groove, shielded ball bearings.</p> <p>Sheaves may be purchased with polished aluminum grooves or permanently bonded, high visibility red urethane or black conductive neoprene linings. Be sure to specify type of lining when ordering.</p>
